Partnership in Action: Driving Supply Chain Security

December 17, 2020 | 2 - 4 pm ET

Event Link: CISA.gov/ICT-scrm-task-force-events

Agenda

Welcome and Keynote

Overview: Introduction on the Information and Communications Technology (ICT) Supply Chain Risk Management (SCRM) Task Force followed by a high-level overview of the ICT threat landscape and update on the Task Force's accomplishments over the past year.

Speaker: Assistant Director Bob Kolasky, CISA | National Risk Management Center

Panel 1: Supply Chain Risk and Information Sharing

Overview: Bi-directional information sharing is important between the federal government and private sector. The private sector will value and act upon risk information if provided to them, but there are legal and operational barriers to consider when sharing information.

Moderator: Robert Mayer, US Telecom
Panelists: Cheri Caddy, Department of Energy (DOE)
Kathryn Condello, Lumen
Tommy Gardner, HP
Drew Morin, T-Mobile

Panel 2: Mitigating Supply Chain Risk Through Vendor Assurance

Overview: Vendor trust and assurance can help mitigate supply chain risks. Learn best practices organizations can put in place to better understand trust and how those trust and assurance questions are amplified by shock events like COVID-19.

Moderator: John Miller, Information Technology Industry Council (ITI)
Panelists: David George, HP
Chris Oatway, Verizon
Eric Tamarkin, Samsung
Kanitra Tyler, National Aeronautics and Space Administration (NASA)
