OVERVIEW OF CISA CHEMICAL SECURITY'S INTERNATIONAL INITIATIVES

*2022 Chemical Security Summit
August 25, 2022*

Goals for International Chemical Security Engagements

Leverage global knowledge to enhance CISA's programs, services, and products

Share chemical security information and best practices across the U.S. government

Foster a global culture of chemical security and promote U.S. security priorities

Chemical Security Initiatives

- G7 Global Partnership Against the Spread of Weapons and Materials of Mass Destruction (GP) Chemical Security Working Group (CSWG)
 - G7-led, 31-member international initiative to prevent the proliferation of chemical, biological, radiological, and nuclear weapons and related materials
 - Focus on both non-proliferation and chemical security issues and priorities, with an emphasis on information sharing & cost sharing for projects and consideration of new initiatives to fund
- U.S.-Canada Regulatory Cooperation Council (RCC)
 - OMB/Canada Treasury Board-led initiative to eliminate unnecessary regulatory differences and promote free trade
 - CISA Chemical Security and Natural Resources Canada Work Plan on Precursor Chemical Harmonization & Collaborative Science & Technology

GLOBAL CONGRESS ON CHEMICAL SECURITY AND EMERGING THREATS

- Global network of experts working to counter the threat of chemical and explosive terrorism
- Includes law enforcement, government, industry, academia, scientific institutions, and international organizations from nearly 40 countries
- Co-implemented by CISA, Federal Bureau of Investigation, Defense Threat Reduction Agency, and INTERPOL

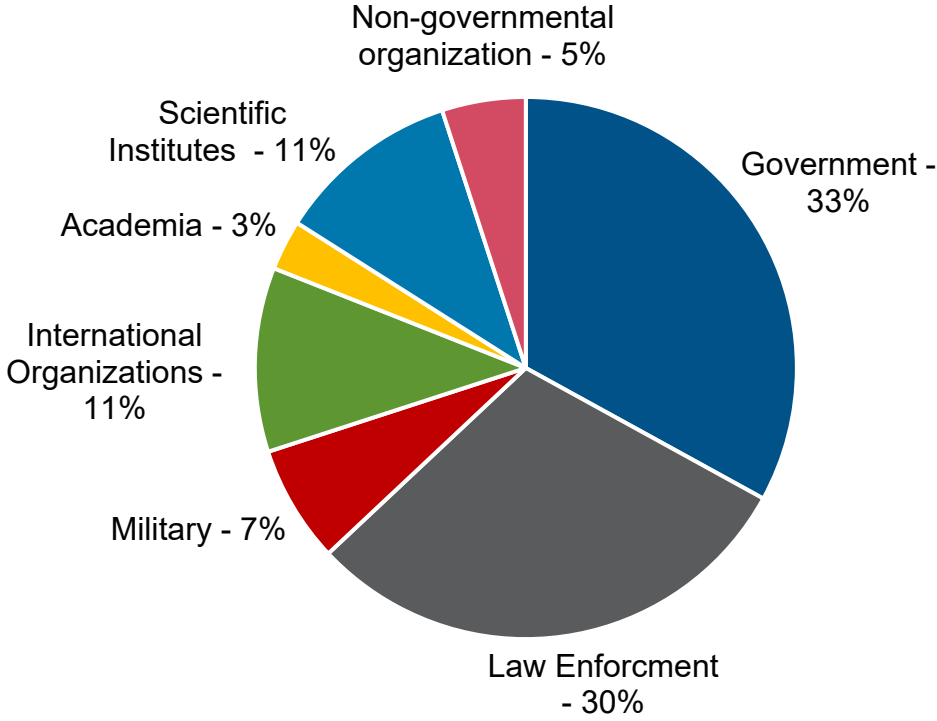

*Members of the Global Congress on Chemical Security and Emerging Threats
INTERPOL HQ
Lyon, France, 2019*
