

ACCESS COORDINATION REQUEST

To: Federal, State, Local, Tribal, and Territorial Emergency Managers and Law Enforcement Officials

CISA requests extending this support to owners and operators of the following critical infrastructure sectors:

Chemical	Commercial Facilities	Communications*	Critical Manufacturing
Dams	Defense Industrial Base	Emergency Services*	Energy*
Financial Services	Food and Agriculture	Government Facilities*	Health Care and Public Health
Information Technology	Nuclear Reactors, Materials, and Waste	Transportation Systems*	Water and Wastewater Systems

* Presidential Policy Directive/PPD-21 identifies communications and energy systems as “uniquely critical due to the enabling functions they provide across all critical infrastructure sectors.” In response to certain circumstances and incidents, these systems would benefit from receiving priority and early support since they are foundational to the restoration of all other critical infrastructure.

This letter does not direct response operations, nor does it supersede the laws, regulations, guidance, priorities, access control measures, and actions established, by state, and local, tribal, and territorial emergency management and law enforcement officials or other proper authorities.

This letter is posted on www.CISA.gov and copies have been provided to the state Emergency Operations Center (EOC) and FEMA Regional Response Coordination Center (RRCC).

CISA can be reached 24-hours a day at 888-282-0870 or Central@cisa.dhs.gov.
