The **BMAP Community Liaison** course prepares participants to conduct outreach in their communities by familiarizing them with explosive precursor chemicals (EPC) and common household products used in the manufacturing of homemade explosives (HME) and the construction of improvised explosive devices (IED). It also provides them the ability to recognize suspicious purchasing behaviors, identify available BMAP resources and implement outreach strategies within their communities.

### Course Format and Audience

This is a one-day, in-person instructor-led training covering the following topics:

- Overview of commercially available products used in IED construction
- Recognizing and reporting suspicious behaviors, and purchases
- BMAP Resources and outreach concepts
- Effective development of BMAP outreach events

This course is designed for groups of up to 30 participants and is intended for private sector partners and public safety officials (whose course of duties include public outreach and interaction) on the importance of being aware of and reporting suspicious activities, behaviors, and purchases.

### Accreditation

The Cybersecurity and Infrastructure Security Agency’s (CISA) Office for Bombing Prevention (OBP) is accredited by the International Accreditors for Continuing Education and Training (IACET) to award Continuing Education Units (CEUs) for this course:
