

## ISC 25<sup>th</sup> Anniversary Commemorative Series 1: December 2019

Interagency Security Committee (ISC) Stakeholders,

As many of you are aware, in 2020 we will observe two significant 25<sup>th</sup> Anniversaries – the bombing of the Alfred P. Murrah Federal Building in Oklahoma City and subsequently the creation of the Interagency Security Committee. Leading up to the 25<sup>th</sup> Anniversary of the Oklahoma City bombing in April 2020, the ISC will support remembrance events surrounding the worst case of domestic terrorism in the history of the United States.

To that end, we would like to remind you that the Oklahoma City National Memorial and Museum is observing *168 Days* to remember those 168 that were killed, honor the survivors and express gratitude for those first responders whose lives were changed forever. You can follow along with us at <https://oklahomacitynationalmemorial.org/remember/day/38/>.

For the 25<sup>th</sup> Anniversary of the ISC in October 2020, we also would like to observe significant moments in the history of the ISC with you. On December 12, 1995, in accordance with Executive Order (EO) 12977, the most senior-level security officials from 17 Federal Departments and four Agencies attended the first ISC meeting at the Andrew Mellon Auditorium in Washington D.C. Eight working groups were established at the meeting focused on the various ISC responsibilities in EO 12977.

The ISC is now composed of 21 primary members and 42 associate members. Its commitment to fulfilling the responsibility to “enhance the quality and effectiveness of security in and protection of Federal facilities” has never been stronger. Whether it is the growth of our membership, the over 20 guidance documents published, or the first year of compliance reporting – the ISC is delivering on the promise made 25 years ago and sustained today by our members.

Thank you for your continued support.

Very Respectfully,  
Daryle

Daryle Hernandez | Chief, Interagency Security Committee (ISC) | Office 703.235.8116 | Cell 202.836.0081
