

Interagency Security Committee Stakeholders,

In this 25th Anniversary Commemorative Series, we highlight the Department of Justice *Vulnerability Assessment of Federal Facilities* report.

In the aftermath of the bombing of the Alfred P. Murrah Federal Building, the Department of Justice led a working group to assess risks to Federal facilities and propose recommendations for mitigating this risk. From the very beginning the work was a collaborative effort by Federal agencies. The working group included DOJ, FBI, USSS, and GSA. On June 28, 1995 they delivered their report and one of the key recommendations was to create the Interagency Security Committee (ISC).

This early group recognized that the ISC would provide an authoritative and collaborative forum that would be able to adapt to future demands. As we commemorate the 25th Anniversary of the ISC, I would like to take a moment to solicit your support as we continue to evolve and refine this esteemed organization. **Please send us feedback you might have regarding the work of the ISC by Tuesday, July 7.**

Your feedback is crucial for the ISC to continue to adapt and support the federal facility security community.

Thank you for your continued partnership to defend today and secure tomorrow.

Very Respectfully,
Daryle

Daryle Hernandez | Chief, Interagency Security Committee (ISC) | Office 703.235.8116 | Cell 202.836.0081
