Goal 1: Governance and Leadership
Develop and maintain effective emergency communications governance and leadership across the Emergency Communications Ecosystem.

Goal 2: Planning and Procedures
Develop and update comprehensive emergency communications plans and procedures that address the evolution of risks, capabilities, and technologies across the Emergency Communications Ecosystem.

Goal 3: Training, Exercises, & Evaluation
Develop and deliver training, exercise, and evaluation programs that enhance knowledge and target gaps in all available emergency communications technologies.

Goal 4: Communications Coordination
Improve effective coordination of available operable and interoperable public safety communications capabilities for incidents and planned events.

Goal 5: Technology and Infrastructure
Improve lifecycle management of the systems and equipment that enable emergency responders and public safety officials to share information efficiently and securely.

Goal 6: Cybersecurity
Strengthen the cybersecurity posture of the Emergency Communications Ecosystem.

Vision:
To enable the Nation's emergency response community to communicate and share information securely across communications technologies in real time, including all levels of government, jurisdictions, disciplines, organizations, and citizens impacted by any threats or hazards event.
