

Webinar: Securing and Enhancing the ICT Supply Chain

July 13, 2022 | 1 - 2 PM ET

Agenda

Welcome

Overview: Introduction on the Information and Communications Technology (ICT) Supply Chain Risk Management (SCRM) Task Force followed by a high-level overview of the importance of securing and enhancing the ICT supply chain.

Speaker: Assistant Director Mara Winn | Cybersecurity and Infrastructure Security Agency (CISA), National Risk Management Center (NRMC)

Securing and Enhancing the ICT Supply Chain

Overview: The Information and Communications Technology (ICT) community produces the technologies that individuals, companies, and governments alike rely on to connect and protect our society. The reliance on ICT products across all critical infrastructure sectors of the economy underscores the importance of this industry to U.S. economic growth and national security. Panelists will discuss key public-private sector policies, initiatives, and programs that are designed to advance ICT supply chain risk management resilience; examine how best to prioritize and rationalize federal cross-agency and private sector collaboration and activities, utilizing a resource appropriate approach; and discuss the impacts of the COVID-19 pandemic and other disruptive events on the ICT supply chain and the U.S. economy..

Moderator: Robert Mayer, USTelecom

Panelists: Edna Conway, Microsoft Corporation
Joyce Corell, Office of the National Cyber Director
Laura Hershon, National Risk Management Center
Melissa Newman, Telecommunications Industry Association

Closing Remarks

CISA Assistant Director Mara Winn
