4. *January 9, McLean Patch* – (Virginia) **Police seize 87 fraudulent credit cards from...**
suspects Sunday at Tysons shopping center. Authorities in Fairfax County, Virginia, arrested and charged 3 suspects after they seized 87 fraudulent credit cards in the suspects’ possession at Tysons Corner Center January 8. Further investigation revealed the suspects also possessed several items used to manufacture fake credit cards and identification cards.

Transportation Systems Sector

5. January 10, Tulsa World – (Oklahoma) Steers rounded up, some euthanized, after cattle truck overturns on Inner Dispersal Loop downtown. Portions of the Inner Dispersal Loop in Tulsa, Oklahoma, were closed for more than 4 hours January 9 after a cattle truck overturned, setting around 90 steers loose on the roadway. A total of 10 calves died from the crash.

6. January 10, Monterey County Herald – (California) Slides shut Santa Cruz county arteries in wake of storm. California State Route 17 near Vine Hill Road in Santa Cruz was closed for more than 9 hours January 9 after a roughly 300-foot section of hillside slid onto the roadway.

7. January 9, New York Daily News – (New York) Water spill causes delays on eight subway lines. Eight Metropolitan Transportation Authority (MTA) train lines in New York were delayed for about 3 hours January 9 after an ice-blocked water main at the West Fourth Street – Washington Square station caused water to spill out onto the tracks, prompting MTA officials to temporarily cut power.

8. January 9, KOMO 4 Bellevue – (Washington) Some lanes of Pacific Highway in Federal Way reopen after large gas leak. The southbound lanes of Pacific Highway in Federal Way, Washington, reopened several hours after a major gas main break at a nearby construction site forced the closure of both directions of the highway January 9. Crews conducted a HAZMAT investigation in the immediate area and advised several nearby businesses to close due to elevated levels of natural gas.

9. January 9, KNTV 11 San Jose – (California) Highway 101 in Gilroy reopens after flooding. Both directions of U.S. Route 101 south of Monterey Street in Gilroy, California, were closed for several hours January 8 – January 9 due to flooding that prompted authorities to issue voluntary evacuation orders for the city’s low-lying areas.

14. **January 9, KFDA 10 Amarillo** – (Texas) **Flooding damages Potter County Courthouse.** The Potter County Courthouse in Amarillo, Texas, was closed until further notice January 9 due to flooding throughout the building after a heating and air conditioning unit on the sixth floor burst while thawing. Officials were working to determine the extent of the damages.

15. **January 9, KKTV 11 Colorado Springs** – (Colorado) **El Paso County Courthouse to reopen Tuesday.** The El Paso County Combined Courts in Colorado was evacuated and closed January 9 after severe wind blew parts of the facility’s roof off, causing damage to the courthouse’s south tower.

16. **January 9, Associated Press** – (California) **Yosemite National Park to reopen following flooding.** Officials at Yosemite National Park in California announced the valley floor would reopen to visitors January 10 after severe storms and flooding forced the closure of the area January 6. Park workers were working to assess the extent of the damage to the water and sewer systems.

17. **January 9, WPEC 12 West Palm Beach** – (Florida) **South County Courthouse evacuated.** The South Palm Beach County Courthouse in Delray Beach, Florida, was evacuated for several hours January 9 after a suspicious powder was found in a letter addressed to the Palm Beach County Clerk. Three people were checked out for possible symptoms related to the powder, which firefighters determined was not a threat.

18. **January 9, WKKX 101.5 FM Trenton** – (New Jersey) **Water main break snarls Trenton traffic, closes justice complex.** The Hughes Justice Complex in Trenton, New Jersey, was closed January 9 after a 16-inch water main broke due to the cold weather. The break forced the closure of several surrounding streets while crews evaluated and repaired the break.

19. **January 9, SecurityWeek** – (International) **Man pleads guilty to hacking accounts of**
U.S. officials. A North Carolina resident pleaded guilty the week of January 2 for his role in the “Crackas With Attitude” hacking group’s conspiracy to gain access to the online accounts of Federal Government officials and their families, as well as government computer systems from October 2015 and February 2016. The group published the officials’ personal details on the Internet and harassed them over the phone. Source: http://www.securityweek.com/man-pleads-guilty-hacking-accounts-us-officials

Information Technology Sector

21. January 9, SecurityWeek – (International) Rockwell Automation addresses flaws in programmable controllers. Rockwell Automation released firmware updates for its Allen-Bradley programmable automation controllers, programmable logic controllers, and safety programmable controllers after Industrial Control Systems Cyber Emergency Response Team (ICS-CERT) reported that versions 16 –21 of the devices were plagued with a critical stack-based buffer overflow flaw that could be remotely exploited to execute arbitrary code on a controller or cause the device to enter a denial-of-service (DoS) condition by sending maliciously crafted common industrial protocol (CIP) packets to the targeted device. Source: http://www.securityweek.com/rockwell-automation-addresses-flaws-programmable-controllers

22. January 9, SecurityWeek – (International) Edge exploits added to Sundown EK. A security researcher discovered that the operators of the Sundown exploit kit (EK) started leveraging two memory corruption flaws in Microsoft Edge that can be remotely exploited to execute arbitrary code in the context of the user by tricking a victim into accessing a maliciously crafted Website. Source: http://www.securityweek.com/edge-exploits-added-sundown-ek

23. January 9, SecurityWeek – (International) Mac crashing attack method used in tech support scam. Malwarebytes Labs security researchers discovered that attackers are leveraging drive-by downloads to deliver malicious code targeting Apple’s Safari browser on Macs via a newly registered scam Website that pushes two different types
of denial-of-service malware as part of a campaign to trick victims into calling a fake tech support service. The researchers stated that the attack does not work against machines running Mac’s operating system Sierra 10.12.2 or above.
