**Financial Services Sector**

5. *January 13, U.S. Department of Justice* – (National) **Justice Department and State partners secure nearly $864 million settlement with Moody’s arising from conduct in the lead up to the financial crisis.** The U.S. Department of Justice, 21 States, and the District of Columbia reached a nearly $864 million settlement with Moody’s Investors Service Inc., Moody’s Analytics Inc., and their parent, Moody’s Corporation January 13 to resolve allegations that the firm deviated from its credit rating standards and methodologies for Residential Mortgage-Backed Securities (RMBS) and Collateralized Debt Obligations (CDO) and failed to disclose those changes to the public, causing people to make poor investment decisions. The Statement of Facts included in the settlement acknowledges that beginning in 2001, Moody’s RMBS group used an internal RMBS rating tool that did not calculate the loss given default or expected loss for RMBS below AAA and failed to integrate Moody’s own rating standards, among other violations.

**Transportation Systems Sector**

6. *January 17, KCRA 3 Sacramento* – (California) **Man killed, several others injured in Roseville crash on Hwy. 65.** California State Route 65 in Roseville was closed for nearly 3 hours January 16 while crews worked to clear the wreckage following a 6-vehicle chain-reaction crash that killed 1 person and hospitalized up to 8 others.

7. *January 16, Southern California City News Service* – (California) **Police chase involving woman driving RV ends in standoff, causes I-10 closure.** Interstate 10 near Chiriaco Summit in California was closed for several hours January 15 while police pursued a woman driving a recreational vehicle erratically.

8. *January 14, KHOU 11 Houston* – (Texas) **Fatal accident shuts down Hwy 59 for hours, multiple injuries.** The southbound lanes of U.S. Route 59 in Houston were closed for several hours January 14 following a multi-vehicle collision that killed 1 person and sent 11 others to nearby hospitals with injuries. The crash remains under investigation.
9. **January 13, Portland Oregonian** – (Oregon) **Oregon transportation department investigating after MAX train derailment.** The Oregon Department of Transportation is investigating after a Metropolitan Area Express (MAX) train switching from the Blue Line to the Yellow Line in Portland derailed January 13 due to ice, causing Blue Line service to stop for several hours. No injuries were reported.

13. **January 13, U.S. Environmental Protection Agency** – (Connecticut) **Settlement helps protect public health in South Windsor, Conn.** The U.S. Environmental Protection
Agency (EPA) announced January 13 a $78,184 settlement with South Windsor, Connecticut-based Carla’s Pasta to resolve alleged violations of the Clean Air Act’s risk management requirements as well as Federal Emergency Planning and Community Right-to-Know Act requirements after an August 2014 EPA inspection revealed that the firm failed to comply with safety information requirements, comply with operating procedure requirements, and comply with mechanical integrity requirements, among other violations. The settlement also stated that the business violated right to know laws by neglecting to submit a required Tier II inventory of hazardous chemicals for 2011 and 2012.

Water and Wastewater Systems Sector

14. January 16, Holland Sentinel – (Michigan) 100K gallons of sewage overflows in Jamestown Township. The Jamestown Water and Sewer Department in Michigan reported January 16 that an estimated 100,800 gallons of sewage overflowed into a nearby creek after severe winds reportedly caused power to the lift station to experience a shock that disabled one of the pumps and prevented the lift station from working properly. Crews applied lime to the impacted area to kill any biological pathogens and officials stated that the affected pump controls have been repaired and the lift station is back in operation.

15. January 14, San Luis Obispo Tribune – (California) 2,000-gallon sewage spill at California Men’s Colony affects Chorro Creek. The San Luis Obispo County Public Health Department in California reported that around 2,000 gallons of sewage leaked from a manway into a storm drain at California Men’s Colony (CMC) and Chorro Creek January 14, likely due to a sewer system blockage. CMC Correctional Wastewater Treatment Plant officials responded to the spill and disinfected the impacted area.

Healthcare and Public Health Sector

16. January 17, WAVY 10 Portsmouth – (Virginia) 5,000+ Sentara Healthcare patient records involved in security breach. Sentara Healthcare announced January 17 that the medical records of about 5,454 vascular and thoracic patients who visited Sentara hospitals in Virginia between 2012 and 2015 may have been compromised following a cyber security breach at a third party vendor for the healthcare organization. The breach remains under investigation.

17. January 13, U.S. Department of Justice – (Massachusetts) Medstar Ambulance to pay $12.7 million to resolve False Claims Act allegations involving medically
unnecessary transport services and inflated claims to Medicare. Massachusetts-based Medstar Ambulance Inc., including 4 subsidiaries and its 2 owners agreed January 13 to pay $12.7 million to resolve False Claims Act allegations after the company routinely submitted fraudulent claims to Medicare for ambulance transport services that did not qualify for reimbursement, higher levels of services than were required by patients’ conditions, and higher levels of services than the company provided from January 2011 – October 2014. As part of the settlement, Medstar agreed to enter a corporate integrity agreement with the U.S. Department of Health and Human Services.

18. January 13, U.S. Department of Justice – (Illinois) Justice Department announces findings of investigation into Chicago police department. The U.S. Department of Justice announced January 13 that it found reasonable cause to believe the Chicago Police Department (CPD) engages in a pattern of using unnecessary and avoidable force, including deadly force, in violation of the Fourth Amendment of the Constitution after initiating an investigation into the department in December 2015. The investigation found that CPD’s pattern of unconstitutional force was caused by deficiencies in its accountability systems, how the department investigates use of force, and how it responds to allegations of misconduct, among other shortfalls.

Information Technology Sector

19. January 16, SecurityWeek – (International) Flaws found in Carlo Gavazzi energy monitoring products. Carlo Gavazzi released firmware updates after a security researcher found that the company’s VMU-C product was plagued with a flaw that grants a malicious actor access to most of the application’s functions without authentication, as well as a cross-site request forgery (CSRF) issue that can be exploited to change configuration parameters. The researcher also found the product stores some sensitive information in clear text, and warned that the flaws can be remotely exploited if the device’s administrator interface is accessible from the Internet or local network.

ransomware. Researchers from Heimdal Security found that a recently spotted campaign is leveraging the Empire Pack version of the RIG exploit kit (EK) to exploit one of eight vulnerabilities plaguing outdated versions of Adobe Flash Player, Microsoft Internet Explorer, Microsoft Edge, and Microsoft Silverlight in order to compromise a victim’s device and download and install the Cerber ransomware. The researchers reported that users must keep their software updated at all times to ensure protection against such attacks.

21. January 13, Washington Post – (International) Virginia college student pleads guilty to federal computer malware charges. A student at James Madison University in Virginia pleaded guilty January 13 to Federal charges after he developed malicious keylogger software and sold the malware to more than 3,000 users, who subsequently used the software to infect more than 16,000 computers.
