Priority Services Eligibility

Overview
Wireless Priority Service (WPS), Government Emergency Telecommunications Service (GETS), and Telecommunications Service Priority (TSP) are provided by the Cybersecurity and Infrastructure Security Agency (CISA) to ensure that all essential organizations and their personnel have access to priority telecommunications and restoration services.

Essential Organizations
Our nation's critical infrastructure sectors are considered essential. These organizations' assets, systems, and networks, whether physical or virtual, are so vital to the United States that their incapacitation or destruction would have a debilitating effect on security, national economic security, national public health or safety, or any combination thereof.

Essential organizations can be found within all levels of government (federal, state, local, tribal, and territorial), the private sector, and Non-Governmental Organizations (NGOs).

To check eligibility or to begin enrollment, please contact the CISA Priority Telecommunications Service Center at (866) 627-2255, email ecd@cisa.dhs.gov or visit cisa.gov/pts.
