# National Interoperability Field Operations Guide (NIFOG)

## NATIONAL INTEROPERABILITY FIELD OPERATIONS GUIDE (NIFOG) VERSION 2.01

The National Interoperability Field Operations Guide (NIFOG) has been updated to version 2.01. New content in 2.01 includes references on Information Technology, Emergency Wireless Carrier Services, Interference Management, Encryption, and Cybersecurity. The NIFOG is a technical reference for radio technicians, used for emergency communications planning and disaster response. The NIFOG includes rules and regulations for use of nationwide and other interoperability channels, tables of frequencies and standard channel names, and other reference material, formatted as a pocket-sized guide for radio technicians to carry with them.

To view and download PDF version, please visit: [cisa.gov/safecom/field-operations-guides](https://cisa.gov/safecom/field-operations-guides).

### eNIFOG MOBILE APP

The National Interoperable Field Operations Guide (NIFOG) version 2.01 is now available as the eNIFOG mobile app on Apple® iOS™ and Google® Android™ devices.

#### Easy to Use

The eNIFOG app allows users easy access to NIFOG information; providing a content index with shortcuts to reference materials, sections, tables, figures, and images.

Navigation links allow users to reach regional quick references, as well as bookmark favorites to develop their own personalized view of critical information within their territory. eNIFOG can be downloaded and used as an offline reference without the need of cellular or data connection.
